

Reasons for Recoupment- Specialty Mental Health Services

In alignment with DHCS Compliance Monitoring requirements and CalAIM Medi-Cal Transformation initiatives, recoupment shall be focused on identified overpayments and patterns in documentation suggestive of fraud, waste or abuse.

Effective 7/01/2024, the reasons for recoupment are:

- **Claim submitted for service during a lock-out**
 - Examples include but are not limited to: services provided while a client is incarcerated, hospitalized at an inpatient psychiatric facility, a Crisis Residential Treatment Program, IMD facility, and/or services provided that conflict with the same-day billing matrix.
- **Missing documentation of allowable service**
 - A service may have been provided, but there is no documentation provided as part of a Medical Record Review, Technical Assistance Review, or self-review conducted by the program.
- **Service not billable under Title 9**
 - Examples include but are not limited to: administrative only services, leaving a voice message, calling to schedule with a client and no other service was provided or deemed as solely academic, vocational, recreational, socialization, transportation, payee related
- **Evidence of fraud, waste, abuse**
 - Billing for services not rendered or not medically necessary
 - Billing separately for services that should be a single service
 - Falsifying records or duplicate billing
